BUSINESS OVERVIEW:

GPT Healthcare Ltd (IĽS Hospital's)s one of the key regional corporate healthcare companies in Eastern India in terms of number of beds and hospitals as of Fiscal Year 2023. The company operates a chain of mid-sized full-service hospitals under the brand and provides integrated healthcare services, with a focus on secondary and tertiary care. As of September 30, 2023, they operate 4 multispecialty hospitals in Dum Dum, Salt Lake and Howrah in West Bengal and Agartala in Tripura with a total capacity of 561 beds.

The company offers a comprehensive range of healthcare services across over 35 specialties and super specialties, including internal medicine and diabetology, nephrology (including renal transplants), laparoscopic and general surgery, gynaecology and obstetrics, critical care, gastroenterology, orthopaedics and joint replacements, interventional cardiology, neurology, neurosurgery, paediatrics, and neonatology. Each of their hospitals also provides integrated diagnostic services and

pharmacies that cater to their patients. The company has presence in 3 cities which provided them an understanding of regional nuances, patient culture and the mindset of medical professionals and where there is under-penetration of quality and affordable healthcare services. This has enabled their revenue from operations (ex-COVID) to grow at a CAGR of 53.87% over FY2021 to FY2023 and ROCE being 26.09% for FY2023.

Dr. Om Tantia, the Managing Director and one of their Promoters, is the founder of ILS Hospitals and is an established name in the field of laparoscopic surgery. He has more than 40 years of experience as a medical practitioner and established ILS Hospitals in the year 2000 with the vision of providing quality healthcare services in Eastern India. Under his guidance, the first hospital in their network was established in Salt Lake, Kolkata (West Bengal) in the year 2000 with a capacity of 8 beds, which has grown to 85 beds, including 17 beds across various ICUs and HDUs as of September 30, 2023. The 2nd hospital was set up in Agartala (Tripura) in the year 2011 and has a capacity of 205 beds as of September 30, 2023, including 66 beds across various ICUs and HDUs.

Their hospital in Dum Dum, Kolkata (West Bengal), established in the year 2013, has 155 beds, including 53 beds across various ICUs and HDUs as of September 30, 2023. It is authorized to perform renal transplants. The hospital in Howrah (West Bengal) was commissioned in the year 2019, with 116 beds including 43 beds across ICUs and HDUs as of September 30, 2023. The company has 1,902 employees, 91 full-time consultants, and 481 visiting consultants as of September 30, 2023. Each of their hospitals is managed by a Chief Operating Officer, who is responsible for supervising day to day functioning.

Given the geographical concentration of their Hospitals in Eastern India, they are well-placed to capitalise on the expected growth in the healthcare sector in Eastern India and adjoining states due to their early-mover advantage, strategically located hospitals, brand presence, deep understanding of the regional markets and existing track record.

This is demonstrated by the fact that in FY2023, FY2022, FY2021, and for the 6 months ended September 30, 2023, and September 30,

2022, 94.74%, 94.63%, 87.90%, 92.48% and 95.36% of their revenue from operations was from private insurance patients or walk-in cash patients. This indicates that personal preferences and not corporate associations have drawn them to avail of c o mp a servicessIn Fiscal Year 2023, they had the 2nd highest contributions from cash, TPA and insurance payors combined amongst their peers.

C o mp a hospitals in West Bengal are strategically located in densely populated cities of Kolkata (West Bengal) and Howrah (West Bengal), which enables them to be more easily accessible to patients and their attendants for medical requirements. As at September 30, 2023, the capital cost per bed was around ₹ 5.41 million per bed (including land costs), which included 2 hospitals in a tier-I city, 1 hospital in a tier-II city and 1 in a tier-III city, compared to the industry average (excluding land costs) of above ₹ 10 million per bed in tier-I cities, ₹ 5 million to ₹ 8 million per bed in tier-III cities and ₹ 2.5 million to ₹ 5 million per bed in tier-III cities, for tertiary care hospitals.

Due to their strategy of operating right-sized hospitals in densely populated areas of under-penetrated geographies, they are able to achieve monthly EBITDA break-even within 9 to 10 months. They do not depend on occupancy from government schemes or corporate tieups.

They have been accredited with certificates and achievements by various domestic and international agencies, which is a testament to the medical services that they provide. Their hospitals at Dum Dum, Kolkata (West Bengal) and Agartala (Tripura) have been accredited by the NABH for complying with NABH standards for hospitals.

The Dum Dum Hospital has also been accredited by NABL for complying with ISO 15189:2012 standards in the field of medical testing.

C o mp a hospitals are equipped with quality medical equipment and employ practices and policies. They continue to invest in improving their technological capabilities, training their doctors and other healthcare professionals, increasing day-to-day operational efficiencies, and finding new ways to engage and retain patients. They are developing a healthcare mobile application, the *ILS-MyHealth* for optimizing patient heath management, which is expected to be launched in the FY2024.

COMPETITIVE STRATEGIES:

Key regional corporate healthcare company with a strong foothold in under-penetrated and densely populated healthcare delivery markets

'Right-sized', full service and strategically located hospitals leading to high return on capital

Well diversified specialty mix and location mix

Track record of operating and financial performance and growth

Investment in infrastructure, processes and clinical excellence driving affordability, and a strong value proposition for stakeholders

KEY BUSINESS STRATEGIES

Strengthen the existing hospitals and offerings and add new capabilities and specialties

Strategically grow the presence in adjacent markets

Focus on flexible and asset-light expansion for quick break-even

Implementation of initiatives to improve existing operational efficiencies

INDUSTRY OVERVIEW:

The healthcare delivery market in India is expected to grow at a CAGR of 9%-11% between Fiscal Years 2024 and 2028 and reach ₹ 9.2-9.3 trillion in Fiscal Year 2028. The share of treatments (in value terms) by private players is expected to increase from 64% in Fiscal Year 2018 to nearly 70% in Fiscal Year 2028. According to CRISIL, East and North-East states in India have a population of approximately 388 million people, contributing to 28% of I n d i population as of Fiscal Year 2022. The East and North-East region of India also contributed ~ 15.3% to I n d GDAP in Siscal Year 2022 and has witnessed GSDP growth at a CAGR of 5.1% from Fiscal Year 2012 to Fiscal Year 2022. Given the geographical concentration of their Hospitals in Eastern India.

COMPETITION:

The company faces competition from players which operate in the same region and localities. They face competition mainly from other providers who offer secondary and tertiary healthcare services across specialties. The principal competitors in West Bengal include international and national players with multiple facilities, Apollo GleneaglesHospital(or Apollo MultispecialtyHospital), AMRI Hospitals(Manipa), Peerless aldospitexHospitaland ResearchCenterLtd and MedicaSuperspecialty Hospitaleach of which has a strong presence in Kolkata. In Agartala, they face limited competition as there are only 15 hospitals, with no significant private player. Accordingly, the only key hospitals in Agartala are Indira Gandhi Memorial Hospital and GB Pant Hospital, both of which are government hospitals.

#!\$°"-''fi&ıı"/Łıž`'°"\"."&#+"/Łıž`'ı,\$°"'Ł#"

The company intends to focus on attracting medical value travellers through their expansion plans. The proportion of medical tourists grew from 2.20% (0.11 million tourists) in 2009 to 6.38% (0.62 million tourists) in 2019 in India. The government has constituted a National Medical and Wellness Tourism Board, along with provision of financial assistance to the tune of ₹ 1.70 million to medical tourism service providers under market development assistance (MDA) scheme during the last 4 fiscal years to develop medical tourism in India as of July 2022.

Eastern India is geographically well positioned for medical value travel from Bangladesh, Nepal, and Bhutan, from patients who prefer to obtain quality healthcare services in Eastern India, owing to pricing that is more competitive than hospital chains in the northern and western parts of India, ease of accessibility and their reputation for good clinic outcomes in super specialities such as cardiac surgery and neurosurgery. Their

hospitals are well-connected to both domestic and international travel to be preferred destinations for medical value travel. The combination of quality multispecialty healthcare services that they provide, coupled

with competitive pricing owing to regional advantage, will continue to attract medical value travel, which will help drive their growth. They intend to take several initiatives to attract medical value travelers to these facilities.
