This commitment ensures clients benefit from cutting-edge solutions that drive growth, efficiency, and long-term competitive advantage.

IPO Coverage

Fractal Analytics Limited

SWOT Analysis

STRENGTH

- The company brings deep, integrated technical, domain, functional expertise.
- High client retention driven by deep integration into client decision systems.
- Company maintains long-standing relationship with its leading global clients.

WEAKNESS

- Business concentration has seen as company derive more than 50% of its total revenue from its top 10 clients.
- Company's operating margin remain volatile in last three years.

Fractal Analytics

OPPORTUNITIES

- Leverage domain expertise to expand in new geographies.
- Deepen and expand relationship with existing customers.
- Grow inorganically through strategic acquisitions and alliances

THREATS

- Strong competitive pressure from the industry peers.
- Any rapid technological changes or inability to compete could impact the business.
- Regulatory changes regarding data security and privacy may adversely affect business

Concluding Remarks

- For the last three fiscal years, the company reported weighted average EPS of 8.44 and an weighted average RoNW of 7.4 percent. Based on its annualized FY25 earnings, the P/E stood at 62.11 with the consideration of its upper price band.
- **We recommend to subscribe this IPO with medium to long term view. Fractal Analytics specializes in a niche area of data analytics, harnessing AI innovations built through its own R&D and resources, while also integrating external models. Supported by a strong client base and improving financial performance, the company is well positioned to further accelerate its growth trajectory.**
