Business Insights

Competitive Strengths

- A leading producer of specialized and "critical to operate" products, with high barriers to replacement or substitution. Well-Recognized Brand with Experienced Promoters
- Insulated from mining capex cycles, as company's products cater to after-market spend, providing recurring revenues.
- High value add and technology intensive products, backed by strong R&D and focus on quality control.
- Well established geographically diversified pan-India distribution presence.
- Long standing market player with marquee global customer base and strong global manufacturing and sales capabilities.
- Consistent growth, characterized by operational efficiency and high repeat business
- Experienced management team supported by large, diverse and skilled work force

Business Strategy

- Gain market share and customer wallet share across high growth markets
- Leverage in-house R&D capabilities to grow product offerings and capitalize on future trends.
- Expand our manufacturing capabilities to achieve better economies of scale
- · Explore opportunities for inorganic growth
- Operational efficiencies and margin expansion

Risks

- The company is dependent on third party logistic and support service providers for the delivery of raw
 materials and finished products and any disruptions in their services including transportation services or
 a decrease in the quality of their services may adversely affect business, financial condition and results
 of operation
- Company has global manufacturing facilities, sales and operations exposing it to the risks of doing business in foreign countries
- The company is dependent on a few key suppliers of certain raw materials and do not have long term contracts or exclusive arrangements with these key suppliers.
