Digital Lending Fintech Platform

Moneyview Limited is a technology-driven fintech platform engaged in providing digital financial services, primarily focused on consumer lending and personal finance solutions. The company operates through its digital platform, enabling customers to access personal loans and other financial products through technology-led underwriting and distribution capabilities. Moneyview leverages artificial intelligence, machine learning and alternative data analytics for credit assessment, catering primarily to salaried, self-employed and underserved customers, including new-to-credit segments across India. The company provides financial solutions through partnerships with banks, NBFCs, insurers and other financial institutions.

The company operates through a digital-first lending model, combining technology, data analytics and partnerships with financial institutions to provide seamless credit solutions. Its platform enables customer acquisition, loan origination, credit evaluation, processing and servicing, while Whizdm Finance Private Limited (WFPL), its material subsidiary, supports lending activities. Revenue is generated through lending-related services, loan facilitation arrangements and lending operations. The company has scaled its loan disbursements through Default Loss Guarantee (DLG) arrangements and partnerships with financial institutions, enabling expansion in unsecured consumer lending.

Moneyview has established itself as a technology-led consumer lending platform supported by scalable digital distribution, data-driven underwriting capabilities and a growing customer base. Consolidated revenue increased from ₹1,342.4 crore in FY24 to ₹2,339.1 crore in FY25 and ₹3,351.2 crore in FY26, registering a FY26 growth of 43.3% YoY. FY26 profitability was impacted by an exceptional item of ₹206.7 crore, which moderated PAT growth despite strong operating performance.
